Portfolio: https://pheobenyawanda.netlify.app

PROFESSIONAL SUMMARY

A passionate and self-driven front-end developer with hands-on experience in responsive web development, system support, cloud fundamentals, and full-stack applications. Skilled in building scalable, user-focused solutions using modern JavaScript frameworks. Adept at collaborating in cross-functional teams and continuously learning new technologies to solve real-world problems.

SKILLS

-Front-end development: HTML, CSS, Tailwind CSS, Bootstrap JavaScript

-Framework: React

-Database: MySQL, MongoDB

-Back-end: Express, NodeJS, Typescript

-Tools: Figma, Git, GitHub, Postman, Vite, Linux OS

EXPERIENCE

Front-End Developer | Aquila Cyber   Jan 2025 – Present

Translating Figma designs to develop responsive pages using React.js and Tailwind CSS for real-time threat monitoring.

Collaborating with backend engineers to integrate RESTful APIs and WebSocket connections for live data streaming.

Optimizing application performance, reducing initial load times by 40% through code-splitting and lazy loading.

PROJECTS

Fish Marketing Cooperative System (Full-Stack WebApp) | fishmarke.netlify.app

-Developed a MERN stack application to automate inventory management, sales tracking, and financial reporting for fish cooperatives, replacing manual record-keeping.

-Implemented secure user authentication and RESTful APIs, improving data accuracy and system reliability.

 -Designed interactive dashboards to visualize cooperative performance, helping users make real time business decisions.

EDUCATION AND CERTIFICATIONS

Business and Information Technology | Kabarak University   2021 - 2025

Relevant coursework: Web Development, DBMS, Operating Systems

Full-Stack MERN Development | Power Learn Project Africa   Feb 2025 to July 2025

Relevant coursework: Web Development, Databases, MERN

AWS Cloud Practitioner   Issued Date Dec 2025

Familiar with AWS services and cloud concepts
